I have 24 hour H&S, but I have not had a medical screening and am not in medical surveillance.

Prior to the arrival of CISM folks they need to have a medical screening if they are not in medical surveillance and they need to have at minimum the 24 hour field health and safety course completed. Have these two items been confirmed through their regions Safety Health and Environmental Manager?

Hey Johanna – Thanks for dealing with this. I am going to punt to Janice Pearson on this (AC logistics/resources) since AC originated the order. I will defer to Janice for the 213 process.

Thanks Janice! ☺

Luke – I am working on identifying two CISM team members to deploy to Durango on Saturday, August 15th. They have been requested to support both the AC and the IC so let me know how you would like to handle the 213 if needed. As a national team, HQ is in the loop as you see below.

Definite: Anthony Honnellio, Region 1 Personal Phone/Ex. 6

As soon as I have the second person confirmed I will get you that information.

Johanna Miller | Director, Assessment & Revitalization Program | USEPA Region 8 | 1595 Wynkoop St |

Request for CISM Presence at the Gold King Mine Site, Durango, CO

Per the request from the Incident Area Commander, David Ostrander, Region VII is requesting the EPA's CISM Team to deploy and provide CISM/PEER Support. The HQ CISM Coordinator and Region's VIII's CISM are currently formulating a CISM Response Team to deploy to the Incident Area Command Center in Durango, CO. The Team will provide CISM for Emergency Responders for stress related health concerns.

The HQ Coordinator will secure a two CISM Team to deploy to Durango, CO. The Deployment is scheduled for two weeks or less. If requested, and second CISM team will be created and deploy to the same location for an additional two weeks or shorter.

All CISM communications coordination will be conducted between the HQ Coordinator and Region VII's CISM Team Lead.

A general summary closeout report will be generated at the end of tour.
